Experience

Flex Rental Solutions Product Designer / July 2022 - Current

- Lead UX Designer for StaffingPlus; delivered a new product and post-launch monitoring for stakeholders
- Facilitated design sprints for post-MVP enhancements
- Led and co-launched a learning curriculum initiative for StaffingPlus
- Designed a quantitative usability benchmarking study in Posthog with product and data teams

Flex Rental Solutions QA Analyst / July 2021 - July 2022

- Designed and executed manual test plans and developed automated tests for a web app
- Conducted exploratory testing of features for usability in an agile pre-release workflow
- Initiated and managed documentation for an import tool

Fusionbox QA Analyst / August 2018 - December 2019

- Created manual regression test plans for 15 clients' web and mobile applications.
- Built a test suite using PyCharm, Robot Framework, and Selenium for a children's emotional intelligence platform.
- Documented client-reported bugs for the development team and configured Django CMS for customers.

Education

Google UX Design Coursework / 2022

LaunchCode / 2018

Full Stack Python Web Development Bootcamp

University of Denver / 2017
